Big Progress from VANLI

Can Vanli who is leading his German coaching career in Turkey is signing a big work for progress of Turkish football. Vanli who got different obligations in German Football Federation and Women's League, is preparing a visual essay by leaning on the scientific datums about player progress and substructure at work qualified as „football's alphabet“. Vanlı said that my aim is to help to progress of Turkish football by stating such a wide working wasn't done before in Turkey.

Endorsement: Coach Vanli was the reason for Hearts strong finish - Hearts' board member

Board Member of Hearts of Oak, Frank Nelson Nwolokko says the Phobians strong finish in the just ended Ghana premier league was due to the introduction of Turkish trainer Vanli Can after the club parted ways with Herbert Addo.

The performance of the Phobians was not convincing right from the start of the season which caused the exit of Coach Herbert Addo and his assistant Dauda Lutterodt in 8 league games to end the season.

However in 5 league games to end the season, Vanli Can was brought in as an attaché coach and it worked perfectly for the former premier league champions as they finished the season by placing at the 4th position with 43 points.

And Frank Nelson believes that the appointment of Vanli Can as an attaché coach was the reason why the Phobians finished the season strongly adding that the Board will support Management in appointing the Turkish trainer full time.

'I think there are some introductions in the team that he (Vanli) has made in terms of ball possession. There are new things he has introduced to the club and we cannot take that away from.'

'The Board will make decisions in that regard. We don't want to go into next season thinking we cannot win the league or not do better in Africa, I think he can help us,' Frank Nelson told Citi fm.

Il y a seulement un Vanli

Vanli est sur le point de l'inévitable mémorable succès pour VB

Is there a possibility now that VB Sports will lose the league? With a huge 8-point lead from their nearest rivals Victory, it is highly unlikely given that they just need a point from the remaining three matches of the league. But in football you never know. It has thrown too many shocking results over the years that belie the conventional wisdom.

Perhaps it is not just because of the star-packed team that they have done so magnificently this year. Huge credit must go to the Turkish man in the dugout, **he has molded and assembled a team that is tactically so resolute in defense and highly effective in attack**. Remember in all of the 18 matches VB have played so far, they have never lost a game; it is only four draws which have robbed them of possible 8 points. With an average of 3 goals per match so far there is no mistake about the formidable nature of his strikers but it is team as a unit which has clicked at the most pressing time. It is not because of the excellent keeper in Imran that they conceded less than a goal per match. It is as much of the inspirational figure that is Vanli. Little wonder then they are sitting at the top of the table pregnant with 46 points, their arch-nemesis Victory are way below at second with 38 points.
